

ABOUT CRITICAL SYSTEMS

Critical Systems Computer Consulting, Inc. was founded in 1996.

We strive to provide quality and affordable IT services and support to businesses of all sizes. Our customers range from single PC home offices to Fortune 500 corporations. This diversified background provides our staff with a wide range of skills and experiences that few can match.

We place a high value on providing quality service and support. Serving our clients' best interest is our top priority, and is one way we differentiate ourselves from the competition.

Critical Systems has partnered with Microsoft and several leading IT companies. These partnerships certify our knowledge and experience working with their products and provide Critical Systems with additional resources that other companies may not be able to offer.

Our employees hold many industry certifications such as CNE, MCNE, MCSA, MCSE, A+ and CCNA.

- Utilities
- Textiles
- Banking/Finance

NOVELL TO ACTIVE DIRECTORY

With the help of industry standard toolsets, along with unparalleled custom scripts developed over the years that help with nearly every facet of a migration, Critical Systems can provide a solution that will help you migrate easily. Let our years of experience and expertise in both Novell and Microsoft help you achieve your goals.

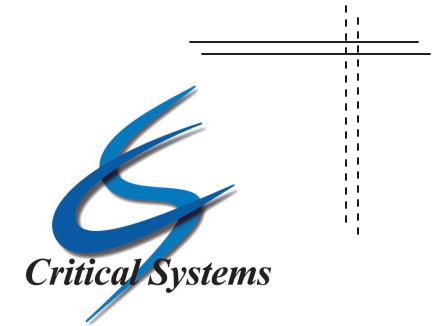

GROUPWISE TO EXCHANGE

Thinking of migrating off your current GroupWise system in order to gain some of the benefits and functionality of Microsoft Exchange? Let Critical Systems help. Move mail and calendar data, address lists, and resources. Whether you are moving to a clean Active Directory or one with existing users, we can help develop a solution for you. The majority of the process takes place behind the scenes as to minimize impact to the users throughout the migration process.

LOTUS NOTES TO EXCHANGE

Lotus Domino/Notes is a complex software suite that encompasses everything from e-mail to calendaring to personal application programming, so there is no doubt that migrating from Lotus Notes to Microsoft Exchange can be just as complex. Let our certified consultants help. Critical Systems can handle the messaging and calendar migration part of Notes. Many customers choose to leave their Domino server operational to run the custom apps created for it for the time being. Migrating to Exchange still allows the custom application functionality. We can help with your Notes to Exchange migration if that is your goal.

we have been doing
migrations for over a
decade

EXCHANGE TO BPOS (MS CLOUD)

Critical Systems can help your organization with the purchase, installation, configuration, and migration to Microsoft BPOS (Business Productivity Online Suite) from your current premise-based Exchange installation.

ACTIVE DIRECTORY TO ACTIVE DIRECTORY

With the help of Critical Systems merge your disparate Active Directory environments after an acquisition or split after a divestiture.

WINDOWS NT TO ACTIVE DIRECTORY

If you still have any legacy NT domains around now is the time to engage Critical Systems to help you migrate from Windows NT to AD (2000/2003).

WE'VE BEEN HELPING BUSINESSES FOR FOURTEEN YEARS. HOW CAN WE HELP YOU?

Call Critical Systems today for a discussion on your current migration needs and how we can help you... (440) 944-5659 x101
